HASLER'S IM330

THE PERFECT OFFICE MAILING SOLUTION

Maximizing efficiency in your mail operations is a key component in ensuring professional communications. The best way to achieve those goals is the Hasler IM330 Intelligent Mailing solution. The IM330 makes it simple to weigh, rate, post and track your mail with accuracy. And, it's amazingly easy to use, with a level of convenience that more than meets your mailing needs.

The IM330's smart and user-friendly technology starts with the powerful, semi-automatic feeder and integrated weighing platform. Its features, functionality and desktop data access will simplify your mailing tasks and provide effective control of mail-related costs... all at the touch of a button.

SEALING AND SECURING YOUR MAIL

Secure sealing ensures confidentiality. The optional integrated moistener allows for a tip-to-tip seal, ensuring a high quality appearance for your mail piece and all-important mail security. Its easy access and no-spill water reservoir is designed for quick removal, easy fill up and simple cleaning.

A WIZARD AT SELECTING RATES

No more confusion selecting postal rates. The IM330 Rate Wizard walks you step-by-step through the process of choosing the right rate and combination of USPS® special services. It also offers rate shortcuts for quick selection of commonly used rates, improving and simplifying the entire mailing process.

MONITOR, TRACK AND CONTROL POSTAGE COSTS

Your business needs to efficiently manage and control postal expenditures. Intelligent Mailing from the IM330 gives you online access to mail-related information. Monitor and track postage, mail class and department usage to effectively control expenses and develop more accurate budgets.

SIMPLE AND CONVENIENT PROCESSING

Process your mail quickly and easily. Weighing and rating your mail is fast and accurate when using Differential Weighing technology. Simply place all your mixed weight mail on the weighing platform, remove an envelope, and the correct rate is calculated automatically. And with "Smart Start", when you're ready, so is your IM330. Each time an envelope is removed, the power feeder activates and is ready to process your mail.

DON'T RUN OUT OF INK

Intelligent Mailing also means efficient ink management. The IM330 uses a long-life cartridge and minimizes ink usage by printing a smaller, USPS® compliant IBI Lite indicia. "Low ink" email alerts ensure that you don't run out of ink, keeping your mailing process up and running. And the IM330's quick access cartridge design means changing ink has never been easier.

MAKE A LASTING IMPRESSION

Impressions make a difference. Let your mail reach out to customers with a level of professionalism that enhances your business image. The IM330 lets you select customized or standard advertising slogans. Or design a text message to personalize and reinforce communications and promote customer relations.

TRACK, CONFIRM, AND SAVE WITH E-SERVICES

Save money by using USPS® discounted electronic rates for eDelivery Confirmation, eSignature Confirmation, and eCertified with Electronic Return Receipt. Email alerts and online access save time by helping you monitor, track, and confirm important items while providing the most accurate data. Smart Connect™ high speed LAN connectivity is available.

MORE FEATURES, MORE FUNCTIONALITY, MORE SOLUTIONS

Performance

- Ergonomically-designed with quiet operation
- Powerfeed for fast batch processing
- Built-in 2 lb. or 5 lb. weighing platform
- Differential weighing for fast processing
